Introduction

The SSDR reporting obligation applies to all public school districts in Massachusetts, including charter schools, virtual schools and collaboratives.

PURPOSE:

This two-part report provides information on:

1. all incidents involving bullying, drug, violent, or crime-related offenses on school property (as defined herein) and any resulting reportable disciplinary actions imposed on the student offender(s) **and**
2. any other offenses in violation of the student code of conduct that result in a disciplinary action which removes the student from their regular educational environment (in-school or out-of-school suspension, removal or expulsion).

BACKGROUND:

Various federal and state statutes and DESE regulations, such as the following, require the collection, monitoring and reporting of data relative to school safety, student behavior and discipline:

The Federal Gun-Free Schools Act (Section 14601 of the Improving America's Schools Act) includes re-authorization of the Elementary and Secondary Education Act (ESEA). It requires each state to provide annual reports to the Secretary of Education concerning implementation of the Act's requirements.

The Federal Individuals with Disabilities Act (IDEA) requires each state to report annually to the Secretary of Education the number of children with disabilities disciplined for drug, weapon or other offenses.

The Massachusetts Education Reform Act of 1993 requires that every school district report annually to DESE on statistics relative to suspensions and expulsions.

M.G.L. c. 71, §37H and 603 CMR 53.14, effective July 1, 2014, requires school districts, charter schools, and virtual schools to collect, periodically review, and annually report student discipline data to DESE. Link to Regulations:

Allegations of bullying and bullying incidents involving staff

In addition to the data that comes from directly from the local SIS via SIF, DESE collects the below via data entered directly into the “DESE State Reporting” application in the Security Portal:

- Counts of bullying allegations
 - The counts entered should represent the aggregate counts of bullying allegations by school, for the current school year. The counts should be broken out by allegations against students, and allegations against staff.
 - If no bullying allegations for a particular school and/or district, the district user would enter zero (0) in the application where applicable.
- Substantiated incidents of bullying involving staff
 - If a district has any substantiated incidents of bullying involving staff as the aggressor, this data is collected in the application. The elements collected are MEPID (if applicable), school, incident date, victim count, and retaliation (Y/N).
 - If no substantiated incidents of bullying involving staff, the district user would check a box in the application to confirm.

Definitions

Offense Record

Offense - A violation of a statute or regulation, or student code of conduct; it may involve one or more victims and/or one or more offenders. Offenses include the following: homicide; sexual battery (including rape); robbery; battery; breaking and entering/burglary; larceny/theft; motor vehicle theft; kidnapping; arson; threat/intimidation; use or possession of drugs (other than alcohol); sexual harassment; sex offenses (non-forcible); vandalism; weapon possession; unclassified offenses; alcohol (liquor law violations); tobacco (where declared illegal); trespassing; fighting; disorderly conduct; as well as other major offenses; and other state (district or municipal) defined offenses, and violations of student code of conduct, including but not limited to bullying. See [Appendix A](#) for offense definitions.

Non-school personnel – An individual who was neither a student nor school personnel for the district reporting the offense.

Non-student – An individual who is not a student in the school or district reporting the offense.

Offender – Any individual, whether a student or not, involved in committing an offense of prohibited behavior. There may be more than one offender involved in any single offense.

School personnel – A teacher, administrator, or other school staff member such as support staff or maintenance worker; includes a school-based law enforcement officer such as a school resource officer.

Student – an individual who is enrolled as a PK-12 student in the school district reporting the offense at the time the offense occurred.

Bullying - the repeated use by one or more students or by a member of a school staff including, but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional of a written, verbal or electronic expression or a physical act or gesture or any combination thereof, directed at a victim that: (i) causes physical or emotional harm to the victim or damage to the victim's property; (ii) places the victim in reasonable fear of harm to himself or of damage to his property; (iii) creates a hostile environment at school for the victim; (iv) infringes on the rights of the victim at school; or (v) materially and substantially disrupts the education process or the orderly operation of a school.

Weapon – Any instrument or object possessed or used to inflict harm on another person, or to intimidate any person. Examples include firearms of any kind (operable or inoperable, loaded or unloaded); all types of knives, chains, pipes, razor blades or similar instruments with sharp cutting edges; ice picks, dirks, other pointed instruments (including pencils, pens); nunchakus; brass knuckles; Chinese stars; billy clubs; tear gas guns; electrical weapons or devices (stun guns); BB or pellet guns; and explosives or propellants.

Weapons-related offense – Any offense that involves possession, use, or intention of use of any instrument or object to inflict harm on another person, or to intimidate a person, as well as any offense that is somehow related to the possession, use, or sale of weapons but where the possession, use, or sale of weapons was not the main offense (e.g., burglary, trespassing, vandalism); in other words, any offense for which a weapon is present.

Other illegal substances – This would include all illegal drugs (hallucinogens, cocaine, ecstasy, etc) and also the illegal use of substances that may be legal elsewhere (e.g. prescription drugs, steroids, inhalants).

On school property – For purposes of this report, “school property” includes not only the school and school grounds, but also school buses and places where school-sponsored events (dances, trips, sporting events, proms, etc.) are being held.

Physical Injury - Offenses with injury include those in which one or more students, school personnel, or other persons on school grounds require professional medical attention. Examples include stab or bullet wounds, concussions, fractured or broken bones, or cuts requiring stitches.

Discipline Record

SASID – The state assigned student identification number (SASID) should be used to identify the student each time a disciplinary record is filed for that student.

In-school suspension is defined as a disciplinary action imposed by school officials to remove a student from participation in school activities for 1 day or more. Students suspended in school remain in school during the suspension period but are removed from academic classes and placed in a separate environment.

Out-of-school suspension is defined as a disciplinary action imposed by school officials to remove a student from school and from participation in school activities for 1 day or more. Students suspended out-of-school are not in school during the period of their suspension at any time. Out-of-school suspension does not exceed 90 days in a school year.

Emergency Removal is defined as “...removing a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the principal's judgment, there is no alternative available to alleviate the danger or disruption. The temporary removal shall not exceed two school days following the day of the emergency removal...”¹

Expulsion means the removal of a student from the school premises, regular classroom activities, and school activities for more than 90 school days, indefinitely, or permanently, as permitted under M.G.L. c. 71, § 37H or 37H½ for:

- (a) possession of a dangerous weapon;
- (b) possession of a controlled substance;
- (c) assault on a member of the educational staff; or
- (d) a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school, as provided in M.G.L. c. 71, § 37H or 37H½.

Unilateral Removal – Instances in which school personnel (not the IEP team) order the removal of children with disabilities from their current educational placement to an appropriate interim alternative educational setting for not more than 45 school days. The IEP team is responsible for determining the interim alternative educational setting. Unilateral removals do NOT include decisions by the IEP team to change a student's placement.

Removal by a Hearing Officer – Those instances in which an impartial hearing officer orders the removal of children with disabilities from their current educational placement to an appropriate alternative educational setting for not more than 45 school days based on the hearing officer's determination that the public agency has demonstrated by substantial evidence that maintaining the child's current placement is substantially likely to result in injury to the child and youth, or others.

Interim Alternative Educational Setting – An appropriate setting determined by the child's IEP team in which the child is placed for no more than 45 school days. This setting enables the child to continue to progress in the general curriculum; to continue to receive the services and modifications, including those described in the child's current

IEP; and to meet the goals set out in the IEP. Setting includes services and modifications to address the problem behavior and to prevent the behavior from recurring.

Education Services – Under G.L. c. 76, §21 and 603 CMR 53.13, students who are suspended or expelled for more than 10 consecutive days must be provided a list of education services that the school will provide the student during the period of suspension or expulsion. The school must document and report whether the student accepts the services and, if so, what services. Students who are suspended or expelled for different amounts of time are also entitled to education services but do not need to be reported to DESE.
